The gentleman from Kentucky had pointed out the danger to arise from the power of the Government to regulate this matter, but he considered pothing, so dangerous to the interests of the country of its political insulity acts accessed by Jay Gould that it had been observed by Jay Gould that if he could obtain the control of the New York Central as he had of the Erie railroad he could sit at his breaktast table and mark up or mark down the price of commodities. Unless the United States assume the control of this inter-State commerce, there was no power under Heaven to control it. He clied among other acts, to show that Congress had already assumed the control of commerce, the set to prevent cruelty to animals being transported over these roads, passed by the Forty-second Congress.

He argued that there was a deep sense of wrong suffered on the part of the people, and no Congress had a right to pass this by and not head the ery of the people, if e complained not only of the charges for transportation of cereals, but of the unreliability of those charges, which, by their frequent changes, gave an uncertainty to values. THE NAVIGATION ON THE MISSISSIPPI.

The House Committee on Commerce have agreed to the bill placing the Government works at the month of the Mississippi under the control of the Secretary of War. The bill makes it an offence to damage or maliciously interfere with the improvements there prosecuted. It is claimed that the managers of the tow-boat monopoly materially retard the permanent improvement of those waters through the dredging process by hauling old hulks into the channel and then scuttling them. This is intended to profit their business by the computatory process of towage or pilotage. They also agreed to allow the Secretary of War to detail a surgeon of the army to make an examination of the way in which infectious disorders are introduced into the United States and the means of prevention within the power of the Gov-

About two hundred and fifty men are out at this point, where the movement was initiated, and they have thus far captured all trains that have reached the junction of the Eric and Lehigh Valley roads. They switched the cars, set the brakes and removed brake wheels. Everything was done quietly and in the most orderly manner.

Early in the morning the hotels and saloons were notified by the leaders to sell no liquors to any engaged in the strike, which request is scrupulously observed. The mails have not been detained. The movement is extending down the road, and it is reported it will reach the entire length of the road to-morrow morning.
